Plant Cell, Tissue and Organ Culture **34:** 321–323, 1993.

CONTENTS Volume 34 1993

Volume 34 No. 1

Influence of some exogenous amino acids on the production of maize embryogenic callus and on edogenous amino acid content 1
I. Claparols, M.A. Santos, J.M. Torné

Development of shoots and roots in anther-derived callus of *Azadirachta indica* A. Juss. – a medicinal tree 13
V.K. Gautam, K. Nada, S.C. Gupta

Culturing embryogenic protoplasts of 'Hamlin' sweet orange in calcium alginate beads 19
R.P. Niedz

Recovery of whole plants of sweet orange from somatic embryos subjected to freezing thawing treatments 27
M.L. Marín, Y. Gogorcena, J. Ortiz, N. Duran-Vila

Selection and characterization of mannitol-tolerant callus lines of *Vigna radiata* (L.) Wilczek 35
A. Gulati, P.K. Jaiwal

Effect of photoperiod on *in vitro* tuberization of potato (*Solanum tuberosum* L.) 43
J.E.A. Seabrook, S. Coleman, D. Levy

Root induction in pine (*Pinus*) and larch (*Larix*) spp. using *Agrobacterium rhizogenes* 53
B.J. McAfee, E.E. White, L.E. Pelcher, M.S. Lapp

The effect of cultural conditions on the accumulation of formononetin by suspension cultures of *Glycyrrhiza glabra* 63
C. Arias-Castro, A.H. Scragg, M.A. Rodriguez-Mendiola

Plant regeneration from leaf protoplasts of apple 71
E. Huancaruna Perales, O. Schieder

Growth characteristics of *Glycyrrhiza glabra* cell suspension cultures 77
C. Arias-Castro, A.H. Scragg, A. Stafford, M. Rodriguez-Mendiola

Efficient plant regeneration from protoplasts of *Arachis paraguariensis* Chod. et Hassl. using a nurse culture method 83
Z. Li, R.L. Jarret, R.N. Pittman, K.B. Dunbar, J.W. Demski

Somatic embryogenesis in *Cucurbitaceae* 91
I. Debeaujon, M. Branchard

The apparent loss of tissue culture competence during leaf differentiation in yams (*Dioscorea bulbifera* L.) 101
W. Wernicke, H.-Y. Park

In vitro* regeneration and cytological characterization of shoots from leaf explants of three accessions of *Solanum commersonii 107
T. Cardi, V. Iannamico, F. D'Ambrosio, E. Filippone, P.F. Lurquin

Volume 34 No. 2

Original research papers

Ultrastructure of *Lycopersicon peruvianum* leaf explants and streptomycin-resistant shoots on medium containing streptomycin 115
A.M. Timmons, P.J. Dix

Characterization of competence during induction of somatic embryogenesis in alfalfa tissue culture 125
K. Finstad, D.C.W. Brown, K. Joy

Effects of Pluronic F-68 on shoot regeneration from cultured jute cotyledons and on growth of transformed roots 133
A. Khatun, L. Laouar, M.R. Davey, J.B. Power, B.J. Mulligan, K.C. Lowe

Maturation and rejuvenation of *Coriandrum sativum* shoot clones during micropropagation 141
N.V. Kataeva, E.A. Popowich

Callus production, suspension culture and *in vitro* alkaloid yields of *Ephedra* 149
N.A. O'Dowd, P.G. McCauley, D.H.S. Richardson, G. Wilson

Rapid multiplication of adventitious somatic embryos of *Panax ginseng* 157
S. Arya, I.D. Arya, T. Eriksson

Plant regeneration through culture of isolated microspores of *Triticum aestivum* L. 163
I.K.D. Tuvesson, R.C.V. Öhlund

Glucosylation of cyclodextrin-complexed podophyllotoxin by cell cultures of *Linum flavum* L. 169
W. van Uden, H. Oeij, H.J. Woerdenbag, N. Pras

Genetic studies of rice (*Oryza sativa* L.) anther culture response 177
C. Zhang, C. Qifeng

Influence of the carbon source on growth and rosmarinic acid production in suspension cultures of *Coleus blumei* 183
C. Gertlowski, M. Petersen

Propagation of *Liriodendron* hybrids via somatic embryogenesis 191
S.A. Merkle, M.T. Hoey, B.A. Watson-Pauley, S.E. Schlarbaum

Plant regeneration from nucellar tissues of *Aegle marmelos* through organogenesis 199
M. Hossain, M.R. Karim, R. Islam, O.I. Joarder

Plantlet regeneration from callus initiated from flower buds in the wild species *Allium senescens* var. *minor* 205
S.N. Ashalatha, S. Bong Bo

Potential of somatic embryogenesis in *Prunus avium* immature zygotic embryos 209
G. De March, E. Grenier, N. Miannay, G. Sulmont, H. David, A. David

Development of an *in vitro* culture technique for conservation of *Saccharum* spp. hybrid germplasm 217
P.W.J. Taylor, S. Dukic

Research note

Assessment of liquid culture procedures for *in vitro* propagation of *Rheum emodi* 223
N. Lal, P.S. Ahuja

Volume 34 No. 3

Somatic embryogenesis from immature zygotic embryos of oil palm 227
J.B. Teixeira, M.R. Söndahl, E.G. Kirby

Comparative effects of sorbitol and sucrose as main carbon energy sources in micropropagation of apricot 235
G. Marino, G. Bertazza, E. Magnanini, A.D. Altan

The influence of plant growth regulators and light on microtuber induction and formation in *Dioscorea alata* L. cultures 245
J.L. John, W.H. Courtney, D.R. Decoteau

Plant regeneration from callus and explants of *Sesbania* spp. 253
Z. Yan-Xiu, Y. Dun-Yi, P.J.C. Harris

Elicitor-mediated induction of enzymes of lignin biosynthesis and formation of lignin-like material in a cell suspension culture of spruce (*Picea abies*) 261
B. Messner, M. Boll

Efficient adventitious shoot regeneration and somatic embryogenesis in pea 271
S. Özcan, M. Barghchi, S. Firek, J. Draper

Stable transformation of lettuce cultivar South Bay from cotyledon explants 279
A.C. Torres, D.J. Cantliffe, B. Laughner, M. Bieniek, R. Nagata, M. Ashraf, R.J. Ferl

Influence of Fusarium wilt toxin(s) on carnation cells 287
M. Arai, M. Takeuchi

Research Notes

***In vitro* regeneration through organogenesis of *Meconopsis simplicifolia* – an endangered ornamental species** 295
I.M. Sulaiman, C.R. Babu

Embryogenic response of Mexican alfalfa (*Medicago sativa*) varieties 299
S.I. Fuentes, R. Suárez, T. Villegas, L.C. Acero, G. Hernández

Plant regeneration from hypocotyl segments of *Lupinus luteus* cv. L. Aurea 303
A. Daza, M.A. Chamber

***In vitro* propagation of *Gentiana kurroo* – an indigenous threatened plant of medicinal importance** 307
N. Sharma, K.P.S. Chandel, A. Paul

Restricting hyperhydricity of lettuce using screen raft and water absorbent resin 311
W.-L. Teng, Y.-J. Liu
